

## Diadema Perfetta

When build performance and quality of external finish are important, Diadema machines are a terrific choice for home espresso.

The Diadema Perfetta is a new entry into the single boiler machine class and we believe that it is a class leader.

The Perfetta model is a beautifully constructed single boiler machine with e-61 group and is well suited to coffee lovers who predominantly drink espresso and black coffee variants. Large quantities of dry steam are available at the push of a button via the well designed, ball-joint steam wand. The Perfetta produces excellent microfoam.

This machine is finished in stainless steel and constructed on an all stainless chassis as well.

### Diadema Perfetta

<b>Boiler capacity</b>	0.75 litre
<b>Fresh water tank</b>	2.0 litre
<b>Voltage</b>	230 v 50 Hz.
