

Diadema Unico Splendor

The Diadema junior range represents a superb solution to those who desire an elegant design with simplicity in mind- for home or office with the ability to produce perfect espresso and silky textured milk

The Unico Splendor has special improved features that include high-polish exterior finishes and a stainless steel chassis. Group operation is via traditional lever action. The machine also has funky retro side panels! 2007 stock includes ball-jointed steam and hot water wands.

The e-61 group head employed in the Junior range ensures optimum thermal conduction and retention, crucial for extracting and delivering the very best flavour and crema that freshly ground coffee produced on demand has to offer. Precise brewing temperatures are produced by the heat exchanger thermosyphon circulation system and progressive piston infusion in the famous e-61 group head which contains 4.5kg of brass. These attributes will delight any true coffee lover searching for the ability to create the perfect cup.
