

Expobar Office lever

The Expobar range is Spanish made and is manufactured to high quality.

The eb-61 group head employed in lever operated Expobar machines offers excellent thermal conduction and retention, crucial for extracting and delivering the very best flavour and crema that freshly ground coffee produced on demand has to offer.

Precise brewing temperatures are produced by the heat exchanger thermosyphon circulation system and progressive piston infusion in the eb-61 group head which contains 4.5kg of brass. These attributes will delight any true coffee lover searching for the ability to create the perfect cup.

The Office lever is a great machine at a very competitive price!
