

LaSpaziale mini Vivaldi II

The LaSpaziale mini Vivaldi II is newly released in Australia and offers an extra layer of sophistication over the original Vivaldi S1.

New 0.9mm steam tip: The four hole steam tip on this machine produces outstanding microfoam.

Decreased delta: The original Vivaldi S1 needs to detect a temperature drop of one degree Celsius before the heater is activated. The new Vivaldi II activates the heater with the detection of a temperature drop of just one half degree Celsius. Simply put, it makes the temperature accuracy that much more precise in the group boiler and enhances the steam boiler's performance.

Updated temperature sensing probe: The new probe is actually submerged directly into the boilers. This probe has proven to be more reliable than the previous style and has a quicker reaction time.

New LED display: The mini Vivaldi II displays in 1 degree increments, from 91 to 97 degrees Celsius.

Available colours: Black, or Red

LaSpaziale mini Vivaldi II Specifications

Boiler capacity	1.2 litre steam 0.45 litre brew
Fresh water tank	Inbuilt 3 litre
Voltage	230 v 50 Hz.
Other	Vibration pump
Watt	Steam 1250 watt. & brew 800 watt
Dimensions (W x D x H)	390 x 420 x 420 mm approx
Weight	Approximately 20 kg
