

Compak K10 / K10 WBC

The Compak K10 is a cold grinding machine. It is designed for the most demanding of professionals. The exclusive, advanced system of conical burrs with a revolution-reducer guarantees the greatest grinding power with the least friction.

Australian specification is without tamper. The optional WBC specification removes the auto cutout and has changes to the shroud on the dosing chamber.

With slow burr rotation of 300 rpm, the result is a more even and natural grind, with practically no re-heating. At last, it is possible to achieve freshly ground, "cold coffee" that conserves all its properties. The standard K10 grinder has a telescopic press and is espresso area-calibrated.

This grinder is a true and worthy competitor to the Mazzer Robur grinder but at a more attractive price point.

Compak K10 / K10 WBC

Power	490 w
Grinding burrs	68 mm conical
Burr speed	400 rpm/300 rpm– WBC (50 Hz)
Hopper capacity	1700 g
Doser capacity	300 g
Dose Adjustment	5.5–9.0 g
Weight	17 kg
Dimensions: (w x d x h)	210 x 365 x 635
Colour	Platinum/Black (W.B.C.)
