

## ECA KS Doserless

If you've been looking for a high quality professional grinder that is not too large when perched on your kitchen bench top then look no further.

Anfim is an Italian company which has been manufacturing professional grinders for over 50 years under their own name as well as for others (ECA Pasquini etc.) using some Mazzer components including burr sets.

Dosing with the KS is a one hand operation- turn the grinder on with the rocker switch on the side and then simply push against the grinder lever to dose on demand. Grind consistency is excellent with a little clumping evident and almost no static.

The grinder fork is adjustable for distance from the chute (undo 2 Phillips head screws and reposition)- this will suit those with larger than standard pressurised portafilters. Also, the spout is quite close to the p/f- leading to very clean dosing

For those looking for a well constructed grinder but on a smaller footprint than semi commercial grinders, the ECA KS doserless grinder is an excellent choice.

### ECA KS

<b>Power</b>	300 w
<b>Grinding burrs</b>	50mm
<b>Burr speed</b>	1300 rpm (50 Hz)
<b>Hopper capacity</b>	200 g
<b>Weight</b>	5.0 kg
<b>Dimensions: (w x d x h)</b>	125 x 180 x 390 mm
<b>Colour</b>	High polish chrome
