

Macap M4D digital grinder

This hugely impressive grinder is the flagship of the Macap semi-professional range.

With infinitely adjustable micrometric adjustment, grind time is also adjustable in 1/10th second increments. This leads to a precision of dose not found in any other grinder at a similar price.

Simply set your grind and then grind your preferred single or double dose of coffee. The grinder will display elapsed time which can then be programmed.

For the convenience of set and forget, no grinder comes close to the Macap M4D

Macap M4D
