STONE

Reinventing the Coffee Space.

A coffee machine that enhances your favorite origins. With Stone you will savor every nuance of your espresso. No more compromises —satisfy your passion for coffee.

Your kitchen becomes a gourmet coffee bar.

Optimum temperature stability, better results in the cup. Beautiful and compact, but with no compromises. Stone's design seduces and its thermal stability conquers. No plastic parts, only metal, meaning better and more consistent results in the cup.

Fast ignition.

Stone is ready in just 10 minutes. Save time, enjoy your coffee or cappuccino in serenity, and start the day in a great way.

Innovation takes shape.

Crafted with high-quality materials for a unique design, Stone packs its professional technology in a compact domestic size.

The pleasure of choice.

Discover all the stylistic combinations and choose the Stone that suits you best. The choice is yours, but the quality always remains at its highest level.
